

Name of the faculty (教員名)	Isao Shitanda
Title of original paper(論文タイトル)	Paper-based lactate biofuel cell array with high power output
Journal name(雑誌名)	Journal of Power Sources
DOI	https://doi.org/10.1016/j.jpowsour.2021.229533
Title of press release(プレスリリースタイトル)	No Batteries? No Sweat! Wearable Biofuel Cells Now Produce Electricity from Lactate
Date of distribution(プレスリリース配信日)	13-Apr-21
PR Strategy	<ul style="list-style-type: none"> •Press release posted on EurekAlert. •Distributed the press release to a select list of publishers & science journalists.
Highlights	<p>The press release was picked up by major media outlets such as The Engineer, WorldHealth.Net , ScienceDaily , Reliable News UK, Electronics360, USA News Wall and several other science news</p> <p>Altmetric score increased from 1 to 154 (refer to slide 8)</p> <p>The research article received considerable attention on social media platforms like Facebook and Twitter by popular accounts like FuelCellsWorks, Tepir Lab, Noel Chandler, etc.</p> <p>The article was translated into Spanish by at least five news portals like Diario de Mallorca, Faro de Vigo, El Dia and others</p> <p>The release was distributed among journalists and online publishers who specialize in battery technology and material sciences.</p>
